Commissioner James H. Welsh P.O. Box 94275 Baton Rouge, LA 70804

RE: In response to State of Louisiana Department of Natural Resources Office of Conservation's Second Amendment to Declaration of Emergency and Directive

Commissioner Welsh,

In response to the Second Amendment and Declaration of Emergency and Directive order issued by the Louisiana Department of Natural Resources (LDNR), Office of Conservation on September 25, 2012, Texas Brine Company, LLC (TPC) understands the seven items listed in the document.

In the above mentioned, TBC was specifically directed and ordered to perform certain tasks outlined in the above mentioned document. Below are the required responses, as directed.

- 1. TBC's counsel provided LDNR legal counsel with a response to Directives 1-3 on September 28, 2012.
- 2. TBC understands Directive 4, which is to provide all daily logs and field notes from all contractors conducting investigation into subsidence and natural gas bubbling. The Daily Action Summary and results for current information can be found in the Attachment section of this report.
- 3. TBC understands Directive 5, which directs TBC to immediately allow for split or share any sample taken on site related to Well 3A (Serial Number 974265), the cavern, other wells facilities or other site locations. The Daily Action Summary of today's collection can be found in Attachment section of this report.
- 4. TBC understands Directive 6, which directs TBC to immediately report the results (final and preliminary) of any tests, logs samples or data collection performed on Well 3A, the cavern, other wells, facilities or site locations that indicate a change in any previously known conditions related to the investigation of the subsidence or natural gas bubbling

- events, and continue to report any such results. The Daily Action Summary and the Results related to this Directive can be found in Attachment section of this report.
- 5. TBC understands the Directive 7, which states that TBC will provide a daily summary of all tests, or logs performed or samples taken from Well 3A and the cavern as well as any results of those tests or logs, including preliminary as of September 25, 2012 and going forward. The Daily Summary and Results related to this Directive can be found in Attachment section of this report.

Please note that the drilling rig used for the Observation Well 3A has been removed and the site is being rigged down and returned to pre-drilling condition. As such, daily drilling reports for this well have ceased. Plans are being made for longer term potential gas venting/flaring requirements and possible hydrocarbon material recover from Well 3A.

In addition, previous daily summary reports issued to LDNR have included significant duplicate information as there is a fair amount of overlap in the information requested in each of the Directives included in the September 25, 2012 order. All requested information associated with the Directives issued in the September 25, 2012 order are included in the Attachment section of this report.

TBC believes that the submittal of this report satisfies the requirements of the Declaration of Emergency and Directive issued on September 25, 2012. As directed this report is submitted by email to <u>conservationorder@la.gov</u>, ref. "Emergency Declaration-Texas Brine Company LLC-9/25/2012.

Daily Action Summary

May 28, 2013

Stationary Air Monitoring

- Steve Shaughnessy onsite from 07:45 09:00. Changed out the monitors between 08:06 and 08:39. Collected data from the monitoring database and forwarded to Eric Rucinski in the Baton Rouge office for processing.
- Pete Hyatt IV of Code Red (monitor sub-contractor) onsite from 07:00 to 17:00. Assisted in battery change outs and maintenance of the monitoring equipment.

Residential Air Monitoring

• Sage has been requested to suspend bimonthly residential air monitoring. Therefore, Sage will discontinue these activities. The last event was conducted on March 26, 2013.

Gas Seep Sampling

• Not Scheduled

Well Gas Sampling

• Not Scheduled

Under Slab Gas Sampling

Not Scheduled

Air Indoor Monitoring

Not Scheduled

| Fime Onsite: Start Tim | ne: 06:15 | End Time: | 17:45 | |
|------------------------|-----------|-----------|-------|--|
|------------------------|-----------|-----------|-------|--|

Daily Activity:

07:30 attend contractor meeting.

Instrumentation program:

Installed monitoring sites #5, #39, #44, #50, #57, #58 (Rausch & Marnach). Fabricated insert for compressed air pipe driver.

G-1 drilling program:

Provided drilling oversight on G1; collecting samples every 10 feet (Schneider & Smith).

MRAA Sampling Event:

Called and coordinated field staff that will conduct sampling for the week (Smith).

Proposed Schedule:

Instrumentation program:

Install sites #36, #37, #32, #33, #34.

G-1 drilling program:

Log samples from G-1.

MRAA Sampling Event:

Supervise kickoff meeting and gas sampling.

|--------------|-------------|-------|-----------|-------|
| | | | | |

Daily Activity:

07:30 contractor meeting.

Instrumentation program:

08:00 safety meeting. Installed monitoring sites #6, #29, #36, #37, #32, #34. Loaded boats for next day (Rausch & Marnach).

G-1 drilling program:

Provide drilling oversight (Schneider & Smith). Log chip samples from shale shaker; drilling through overburden.

MRAA Sampling Event:

Kick –off meeting with Sage, Pisani, CBI and Faucheux (Smith). Coordinated gas and water sampling. Gas and dissolved gas samples collected from bubble sites.

Proposed Schedule:

Instrumentation program:

Install sites #33, #54, #59 morning till noon 5/22/13. Cut and ready pipe and angle iron upon delivery for the installation of sites #35 and #60 afternoon.

G-1 drilling program:

Continue collecting chip samples from G-1; drilling through cap rock.

MRAA Sampling Event:

Coordinate gas and dissolved gas sampling activities.

Time Onsite: Start Time: 06:45 End Time: 20:15

DAILY ACTIVITY:

07:30 contractor meeting.

Instrumentation program:

Safety meeting. Installed monitoring sites #54, #33. Rain affected daily activity. Prepared material (i.e. drilled holes, cut to length, staged) for monitoring sites (Rausch & Marnach).

G-1 drilling program:

Provided drilling oversight (Schneider & Smith). Log chip samples; drilling through cap rock.

MRAA Sampling Event:

Sampling meeting with Sage, Pisani, CBI and Faucheux (Smith). Coordinate gas and water sampling from Geoprobe wells.

PROPOSED SCHEDULE:

Instrumentation program:

Install sites #59, #3 (morning) and #35, #60 (afternoon). Complete sites #22 and #21 (i.e. add horizontal members and supporting hardware).

G-1 drilling program:

Log samples from G-1; ream hole and set casing.

MRAA Sampling Event:

Coordinate sampling activities.

| | | | | |

DAILY ACTIVITY:

07:30 contractor meeting.

Instrumentation program:

Safety meeting. Installed monitoring sites # 10, #59, #3, #21 and #22 (Rausch & Marnach).

G-1 drilling program:

Provide drilling oversight (Schneider & Smith). Log chip samples collected from shale shaker. Attend pre-coring meeting. Baker Hughes on site to run wireline. Set casing and cement.

MRAA Sampling Event:

Sampling meeting with Sage, Pisani, CBI and Faucheux (Smith). Coordinate gas and water sampling. Gas and dissolved gas samples collected from Geoprobe and ORW wells. Four bubble sites resampled. Second water sampling team added (3 teams total). Air boat released.

PROPOSED SCHEDULE:

Instrumentation program:

Install sites #35 and #60.

G-1 drilling program:

Drilling oversight; wait on cement.

MRAA Sampling Event:

Continue to coordinate gas and dissolve gas sampling activities.
